6. Is DRY SEAL™ MP approved by conservation surveyors and architects?
7. What is the best technique for getting a smooth finish?
8. My glazing supplier says I must use non-silicone/non-butyle, can I use DRY SEAL™ MP?
9. How can I remove smears of dried DRY SEAL™ MP from glass?
10. Is DRY SEAL™ MP guaranteed?
11. What happens if DRY SEAL™ MP goes over its expiry date?
12. DRY SEAL™ MP is brilliant white – can I leave it unpainted?

### **1. How quickly can I paint DRY SEAL™ MP?**

We recommend a minimum of 2 hours before painting.

### **2. Can I use DRY SEAL™ MP on metal windows frames?**

Yes. Please see the guidance notes on the [product data sheet](#).

### **3. Can I use DRY SEAL™ MP around my shower/toilet?**

No, it is not suitable for this type of application.

### **4. What happens if it rains shortly after application of DRY SEAL™ MP?**

DRY SEAL™ MP should only be applied in dry weather but will not be affected by rain once it is applied.

### **5. Is DRY SEAL™ MP safe with double glazed units or specialist glass?**

DRY SEAL™ MP has been tested and is compatible with a wide variety of glazing including acoustic, laminated, sealed double-glazing, Slimlite double glazing, plate, solar reflective and self-cleaning glass. It can also be used with polycarbonate glazing.

**6. Is DRY SEAL™ MP approved by conservation surveyors and architects?**

Usually yes, but please check before applying.

**7. What is the best technique for getting a smooth finish?**

Please refer to the guidance notes and instruction video on the [product page](#).

**8. My glazing supplier says I must use non-silicone/non-butile, can I use DRY SEAL™ MP?**

Yes, DRY SEAL™ MP is a specific modified silane terminated polymer.

**9. How can I remove smears of dried DRY SEAL™ MP from glass?**

DRY SEAL™ MP should be applied carefully, without over filling the rebate. Excess is best removed from the glass with a sharp blade when it is cured.

**10. Is DRY SEAL™ MP guaranteed?**

Yes, our products are [guaranteed](#) for 10 years, subject to conditions.

**11. What happens if DRY SEAL™ MP goes over its expiry date?**

We do not recommend you use any product after its expiry date.

**12. DRY SEAL™ MP is brilliant white – can I leave it unpainted?**

DRY SEAL™ MP has UV resistance so can be left unpainted but painting will help protect against surface pollution.
